### CLEARINGHOUSE RULE 23-018

#### Comments

**[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Legislative Council Staff and the Legislative Reference Bureau, dated November 2020.]**

#### 4. Adequacy of References to Related Statutes, Rules and Forms

The rule states that 38 anabolic steroids are added to schedule III. However, only 35 new items appear to have been added to the statute when comparing this rule to the previous version of s. 961.18 (7), Stats. The agency should review whether only 35 items were added to schedule III, and correct the references to “38” if needed. The 35 items identified in the rule that were not previously included in s. 961.18 (7), Stats., are as follows:

- (a) 3beta,17-dihydroxy-5alpha-androstane.
